Training Announcement

Hyundai-Kia EDR Tool & Tesla EDR Tool Course

This one day course is best suited for field investigators, insurance investigators & adjusters, or those involved in vehicle documentation and examinations. The course offers the attendee insight into the basic operation and use of both the Hyundai-Kia EDR Tool, and the Tesla EDR tool as well as learning the latest software and basic data collection techniques.

The course will provide an understanding of the components of the GIT (Hyundai-Kia) EDR Tool (including the “new” EDR tool) and Tesla EDR Tool exposing the user to the basic functions of the hardware and software. The goal is for the user to confidently collect and preserve data from supported vehicles using the vehicles diagnostic (OBD-DLC) port (Hyundai-Kia), CAN connector (Tesla), or in some cases directly from the airbag control module (ACM).

The hands-on practical exercises allow the attendees to collect data from a supported vehicle and/or module.

Each attendee will receive instruction in the following:

- ◇ Software overview
- ◇ Hardware overview
- ◇ Vehicle/cable look up and identification
- ◇ In-vehicle DLC or CAN connector data collection
- ◇ Direct-to-module data collection
- ◇ “Repowering” options for in-vehicle data collection
- ◇ EDR report basics

Attendees are not required to own the respective EDR tools, although it is strongly encouraged. This course is designed so those who do not yet own the EDR tool will have a better understanding of this evolving technology and benefit from the information.

Individuals who successfully complete this course will receive a certificate of completion for the Hyundai-Kia EDR and Tesla EDR Tools (operator/technician). This course does **not** go into any analysis of the collected data.

Note: There will be a Bosch CDR Tool course Aug. 5th & 6th at the same location | \$635 for both classes

Pre-approved for 8 ACTAR CEUs

HYUNDAI

◆ **Location:**

Corona Police Department
730 Public Safety Way, Corona, CA 92880
Local contact for travel/lodging inquiries: Manny Montero
